## Corn Cob Elongation Specialty Foliar Fertilizer

### 1. Product Technical Data

**Product Name:** Corn Cob Elongation Specialty Foliar Fertilizer

**Appearance:** Brown Liquid

**Formulation Type:** Water-soluble

**Target Crop:** Maize (corn)

**Composition (per Liter):**

- Organic Matter: 120g
- N+K<sub>2</sub>O: 60g

### Key Benefits:

- Promotes cob elongation and seed filling
- Enhances photosynthesis and nutrient absorption
- Improves yield by 15–20% under optimal conditions
- Strengthens plant resistance under drought or stress

### Recommended Application:

- **Stage:** Spray during 4–9 leaf stage (twice application recommended)
- **Dosage:** Dilute at 1:800–1000, spray evenly on leaves

**Packaging:** 1L, 5L,10L or customized

---

## 2. Company Introduction

We are a professional manufacturer and exporter of high-quality water-soluble fertilizers based in China.

No. 1 with WSF 300pcs Certificates of fertilizer registration in China, OEM WSF 300 brands.

Offering innovative crop nutrition solutions tailored to local farming needs.

Our core values:

- Integrity in business
- Customer-centered service
- Sustainable agricultural development

**Our product portfolio includes:**

- Foliar fertilizers
  - Organic and amino acid fertilizers
  - Humic acid & potassium humate
  - Customized nutrient formulas
- 

 **3. Sample & First Order Support Policy**

-  **Free Sample:** Available upon request (shipping cost covered by customer or deducted from first order)
-  **Marketing Support:** We provide free product brochures and technical sheets
-  **Flexible Terms:** Payment terms negotiable for long-term partners
-  **PLZ CONTACT SKYE,**
